

School Name Presents:

Apollo After School

EXTENDED DAY PROGRAM

Orientation Week: TBC

Homework

Enrichment

Fitness

Snacks

Monday

Science Club

Starts TBC

Parachutes, spaceships, lasers, hadron colliders - we all know that science is a subject that's just for the cool kids (like you, of course!). The good news is that science is easy and incredibly fun to start practicing! Students in Apollo Science will learn how to ask the questions that are the beginning of all scientific discoveries, how to make hypotheses, and of course the fun part - testing them to see how they work. Through a hands-on and exciting curriculum, this club will help your child become more curious and have a deeper understanding about how the world works.

Tuesday

Young Explorers

Starts TBC

Students will learn about mysterious rainforests, towering mountains, sweltering volcanoes, exotic cultures, and many other wonders this amazing planet has to offer along with fun travel tips and the great explorers whose daring gave us the maps and charts we take for granted today.

Wednesday

Apollo Builders

Starts TBC

Everybody likes to build! Creating new objects has always been at the core of human existence, and is one of the most rewarding and fulfilling activities for the old as well as the young. In our club, your child will learn many basic building techniques and will be encouraged to put their imaginations and hands to work in making their ideas turn into reality.

Thursday

Math Club

Starts TBC

Math is fun - we're not just saying that, let us show you! Our math enrichment club uses a variety of games and hands-on activities to help improve our students understanding of this critically important subject. Our curriculum emphasizes how math relates to creativity and everyday life, whether it is the geometry of creating their personal starship or in saving money for a trip to the theme park.

Friday

Arts & Crafts

Starts TBC

In Arts & Crafts Club, young Apollo students will learn many techniques to turn their ideas into reality under the guidance of our Apollo staff. Club members will use their creativity and imagination to make many objects for gifts and decorations.
